

Afghanistan Humanitarian Trust Fund (AHTF), managed by Islamic Development Bank (IsDB)

Overview of Seven (7) Projects by AHTF to be Signed on 27 December 2023 with Implementing Partners (IPs)

**Total Cost: USD 24,973,543** 

AHTF Contribution: USD 16,046,066 IPs Contribution: USD 8,927,477

## Project (1): Improving Access to Education through Smart Hubs for Enhanced Education in Afghanistan

- 1	
Implementing	United Nations High Commissioner for Refugees (UNHCR)
Partner	
Project Objective(s)	The project aims to construct and operationalize essential education facilities,
	including SMART hubs, and enhance the access to quality education to
	children from vulnerable communities living in Priority Area of Return and
	Reintegration (PARRs)
Project Cost and	Total Cost: USD 7,520,404
Financing	• USD 5,878,800 AHTF Grant through the contribution of Saudi Fund for
	Development (SFD) to AHTF
	USD 1,641,604 Grant as contribution from UNHCR
Implementation	18 months
Period	
Project Location(s)	16 Districts in 13 different Provinces of Afghanistan
Project Impacts /	The project impact and key performance indicators include the following:
<b>Key Performance</b>	
Indicators	16 integrated mixed-gender schools including SMART hub will be
	constructed, equipped, and fully operationalized in PARRs.
	• 32,000 school-age children (boys and girls) from vulnerable communities
	living in PARRs will get access to quality education.
	• 240 Female Volunteer Teachers will be selected, trained, and integrated
	into the teaching process.
D (0) T	Aggas to Health Commisse for Vulnerable Communities

Project (2): Improving Access to Health Services for Vulnerable Communities

Implementing	United Nations High Commissioner for Refugees (UNHCR)
Partner	

	The project aims to construct and operationalize health facilities in targeted
Project Objective(s)	Priority Area of Return and Reintegration (PARRs) to provide essential
	healthcare services to the vulnerable groups of population, especially IDPs,
	and returnees.
<b>Project Cost and</b>	Total Cost: USD 5,435,317
Financing	• USD 3,210,681 AHTF Grant through the contribution of Saudi Fund for
	Development (SFD) to AHTF
	USD 2,224,636 Grant as contribution from UNHCR
Implementation	18 months
Period	
Project Location(s)	8 Districts in 6 Provinces of Afghanistan
Project Impacts /	The project impact and key performance indicators include the following:
Key Performance	
Indicators	8 health facilities will be constructed, fully equipped, and
	operationalized in PARRs.
	• 240,000 people (30,000 people per healthcare facility) from vulnerable
	<ul> <li>communities living in PARRs will get access to essential health care.</li> <li>250 Female Midwives will be selected, trained, and integrated into the</li> </ul>
	healthcare.
Project (3): Supporting	
Project (3): Supporting Livelihoods Opportunities and Promoting Women Empowerment through Integrated Livelihood Approaches	
Implementing	United Nations High Commissioner for Refugees (UNHCR)
Partner	
Project Objective(s)	The project aims to promote livelihood opportunities for internally displaced
	or returning refuges households with a specific fears on execting income
	or returning refugee households, with a specific focus on creating income

Key Performance Indicators  Property of the pr	project impact and key performance indicators include the following:
Sy	rovision of safe drinking water through climate resilient and sustainable vater supply systems to 64,000 people in 32 remote rural communities in aryab, Helmand, and Farah Provinces of Afghanistan. Establishment and training of 32 water user committees (WUCs) (1 per community) for sustainable management of the water supply system. raining of 64 Mechanics (2 per each community) to be responsible for the peration and maintenance (O&M) of the constructed water supply system.
Project (5): Provision of Essential Health Services to Vulnerable Women and Children in	
Remote Communities in Afg	ghanistan
Implementing The I	United Nations Children's Fund (UNICEF)
Partner	
_	project aims to contribute to improved equitable access to quality health
	ces for people in remote rural communities in Nuristan, Zabul, and
<del> </del>	ni provinces through the construction of 8 primary health facilities.
Project Cost and Total	l Cost: USD 4,000,000
Financing • U D	SD 1,000,000 AHTF Grant through the contribution of Saudi Fund for

Implementation Period Project Location(s) Project Impacts / Key Performance Indicators	<ul> <li>USD 1,000,000 AHTF Grant through the contribution of Kuwait Society for Relief (KSR) to AHTF</li> <li>USD 2,000,000 Grant as contribution from UNICEF (matching funds)</li> <li>24 months</li> <li>Nuristan, Zabul and Ghazni Provinces</li> <li>The project impact and key performance indicators include the following:         <ul> <li>141,000 people (8% of the total underserved population of 1.74 million people), in rural communities in Nuristan, Zabul, and Ghazni provinces will directly benefit from improved access to health services provided through newly constructed health facilities.</li> <li>This will be complemented by the Recruitment of 81 staff and on-the-job training, as needed, and payment of their regular salary.</li> </ul> </li> </ul>
Project (6): Improvin	g the Quality of Maternal and Childcare in Rural Areas of Afghanistan
Implementing Partner	World Health Organization (WHO)
Project Objective(s)	The project will improve the quality of maternal and childcare services in 3 targeted District Hospitals (DHs) in Bamyan province, which has one of the highest maternal and child mortality rates in Afghanistan, by providing essential medical equipment, supplies and commodities. This will be complemented by the addition of female obstetricians. The project will also provide capacity building of healthcare providers in comprehensive maternal, newborn and child health (MNCH) clinical skills, strengthen monitoring systems and increase awareness and advocacy on MNCH.
Project Cost and Financing	<ul> <li>Total Cost: USD 1,508,000</li> <li>USD 1,108,000 AHTF Grant through the contribution of King Salman Humanitarian Aid and Relief Center (KSRelief) to AHTF</li> <li>USD 400,000 Grant as contribution from WHO</li> </ul>
Implementation Period	12 months
Project Location(s)	Bamyan Province
Project Impacts / Key Performance Indicators	<ul> <li>The project impact and key performance indicators include the following:</li> <li>The direct focus population includes estimated 134,876 individuals, including 52,870 Pregnant and postpartum women and 63,282 Children under 5 years.</li> </ul>

• Increased public awareness and advocacy on MNCH		<ul> <li>The indirect focus population includes 228,386 individuals and consists of women at reproductive age and children.</li> <li>Reduction in maternal/child mortalities in target DHs</li> <li>Increased availability of essential MNCH commodities and improved access to and quality of essential MNCH services in target 3 DHs.</li> <li>Increased public awareness and advocacy on MNCH</li> </ul>
